DIESEL ENGINE Universal

The Universal B-Series Continuous Quality Power

M-35b

The Legend Continues

Makers of the world famous Atomic-4 and pioneers in premium marine diesel propulsion, Universal has struck again with its latest release, the Universal B-Series.

The B-Series is powered by the latest advancements in diesel engine design. Some of the benefits from these advancements include cleaner emissions, reduced noise levels, and increased horsepower at lower RPMs. All B-Series engines are naturally aspirated and deliver high low-end torque. All of which produce some of the most quiet and durable marine engines currently available.

If you're looking to replace that aging Atomic-4, the Universal B-Series is still the boaters choice for Atomic-4 replacements**. The M-35B, M3-20B, and M-25XPB offer many similar dimensional characteristics to the Atomic-4, making for a much easier installation.

Universal holds a large inventory of spare parts for your engine including easy-to-buy spare parts kits, and gasket sets tailored to your particular engine.

Parts and service are available worldwide. Universal engines can be serviced by over 600 authorized dealers strategically located in major navigable waterways in the United States and Canada, as well as in over 65 countries worldwide.

It's easy to see why Universal is as popular today as it was 100 years ago. Stop by your local Universal Distributor or Dealer today to learn more about the latest in Universal Marine Power.

** Universal Atomic-4 replacements are not direct drop-ins in all cases. Some engine compartment reconfiguration may be required.

Diesel Engine

Unit Dimensions

Length	32.7" (830.6 mm)
Width	18.9" (480.1 mm)
Height	22.1" (561.3 mm)
Weight	352 lbs. (159.0 kg)

See other side for more dimension information Photographs may show optional equipment.

Dieser Engli

Standard Features

Fresh water cooling
Gear driven raw water pump
Engine pre-wired to plug-in connector
Circuit breaker protected electrical system
E-Z bleed fuel system
12 volt, 51 ampere alternator
Domestic hot water connection
Coolant recovery tank
Throttle, stop, and shift control brackets
Low oil pressure and high water temperature alarms
Short profile marine gear with 1.79:1 reduction
Glow plug cold starting aid
Engine matched four point, fail safe, adjustable mounts
Lube oil drain hose
Air intake silencer
Operators' Manual and Parts List

Optional Admiral Panel

Admiral Panel Dimensions

9.75
4.0'
6.0'

′5" (247.7 mm))" (101.6 mm))" (152.4 mm)

DIESEL MARINE ENGINES CELEBRATING 100 YEARS OF QUALITY MARINE POWER

Optional Equipment

Captain panel with alarm (tachometer with lights)			
Admiral panel with alarms (tachometer with gauges)			
Dual station senders			
Other gear ratios	Consult local Distributor		
Hydraulic transmissions	Consult local Distributor		
Remote expansion tank			
Muffler and fittings			
"A" and "B" on board spare parts kits			
Alternator, 72 amp single output			
Anti-siphon valve for overboard cooling discharge water			
Technical Manual			
Exhaust connection (45 deg., 90 deg. elbows, risers)			
Propeller shaft couplings (rigid/flexible)-available standard sizes			

Specifications

Universal Diesel Marine Engines

Specifications	
Number of cylinders	4 Cylinder vertical in-line
Cycles	4 Cycle
Displacement	81.47 cu. in. (1.335 liters)
Bore and stroke	2.99" x 2.90" (76 mm x 73.6 mm)
Compression ratio	23:1
Maximum angle of installation	Not to exceed 14 deg.
Maximum angle of rotation	Not to exceed 25 deg.
Crankshaft, direction of rotation	Counterclockwise as viewed
	from flywheel end
Propeller shaft, direction of rotation	Right hand - Std. Trans
Dry weight	352 lbs. (159 kg)
Combustion system	Spherical type
Aspiration	Naturally aspirated
Lubrication system	Forced lubrication by gear pump
Coolant capacity	6.0 qts. (5.6 liters)
Starting aid	12 Volt sheathed type glow plug
Engine stop	Manual
Fuel injection pump	Bosch type
Governor	Centrifugal type
Injectors	Throttle type
Fuel filter	Full flow, spin-on element
Lube oil filter	Full flow, spin-on element
Lubricant capacity	5.44 qts. (5.1 liters)
Fuel transfer pump	Electrical
Fuel supply and return piping	1/8" ID (3.18 mm) minimum
	3/8" ID (9.53 mm) maximum
Starting motor	12 volt, solenoid, actuated shift
Battery charging alternator	51 ampere (12 volts)
Cold cranking amps	190 amps
Electrical system	12 volts DC, negative ground
Standard transmission offset	2.44" (62.0 mm)

Construction-Engine Components Cylinder head Cast iron Cylinder block Cast iron Crankshaft Forged crankshaft, five main bearings Valves Overhead, rotating type Fuel System E-Z bleed fuel system Intake system Tuned intake silencer for maximum noise reduction Fresh water-cooled with Cooling system heat exchanger Exhaust manifold Cast aluminum
